NOTEWORTHY NEWS

- Our Carwash and Pressure washer business continues to grow, and with this growth we've decided to add two more vendors to our supplier list;
 - JE Adams is well known for their carwash coin boxes, commercial vacuums, and other self serve car wash equipment.
 - Karcher pressure washers. With the number of **Landa**, **Hotsy** and other **Karcher** brands we see in our shop, we decided it was time we offered their equipment as well as OEM parts.
- As a reminder, we strive to keep our turn around time on repairs at an average of less than one week, and will continue to do so for the foreseeable future. Please keep in mind that the bulk of our business is in the commercial and industrial segment. These folks make a living with the equipment we service for them, and for that reason you may occasionally see something in the shop come and go faster than others. We are very aware of the need to keep everyone's equipment moving, if someone makes a living with theirs it may move through the shop more quickly than something that is for home use only. We appreciate your understanding in the matter.

HydroTek's Nationally advertized special, this is a limited time offer!

\$7895

- *Trailer Mounted*
- *185 Ga. Tank*
- *Hose Reels*
- *100' inlet hose*

- *14hp V-twin electric start*
- *Belt drive pump*
- *Adjustable Temp to 250deg.*
- *Stainless Steel Panels*

Battery not included in price.
Excellent Starter Package!

A KEY TO GETTING MORE LIFE OUT OF YOUR EQUIPMENT

We've mentioned proper off season storage in our newsletter a couple of times now, and talked about signs to look for when bringing your equipment out of storage as well (archives can be found online at <http://www.timallenequipment.com/news/news.htm>) Something to keep in mind as more people try to squeeze more life out of their

equipment is the duty rating of the equipment. As the maximum duty rating is approached, life expectancy drops rapidly. While not always an option, frequently you can slow down a little bit and gain a lot of life. Heat, friction, vibration, electrical load, and several other forces are considered during engineering. Many manufacturers will rate

their product to its absolute limit in order to appear as a more quality product, but when pushed to the limit, an early demise is often the result. Paint or pressure wash with a little less pressure, run the heat on your pressure washer a little less than max, slow your mover down so it doesn't bog, these are all good ways to gain a lot and invest very little.

“STAYCATION” THIS YEAR?

Whether you believe we've hit bottom economically or the worst is yet to come, another year of less than ideal economic conditions is obvious to everyone. A term I'd not heard until recently is "staycation". My first thought was, well, not so bad! I'm not sure about your situation, but for me it might be nice to see what our place looks like in the daylight! Long hours at

work, and raising kids means not a lot of time at home for us. Retail news suggest, not surprisingly, that there's a lot more going on at home. Wii sales (a type of interactive video game that requires some physi-

cal movement!) video rentals, microwave popcorn, all suggest that families are spending more time together. I for one think its great! While money may be tighter, I guess I'm enjoying the way its bringing people together.

Hope you have a great Spring!

Creamy Wild Rice Soup

4 cups water, 1/2 tsp salt, 1/2 cup uncooked wild rice, 3 tbsp chopped green onions, 1/4 cup shredded carrots, 3 tbsp chopped pecans, 6 tbsp butter, 1/3 cup flour, 4 cups chicken broth, 1/2 cup diced fully cooked ham, 1/4 tsp pepper, 1 cup half and half.

In a large sauce pan, bring water and salt to a boil. Add rice. Reduce heat, cover and simmer for 50 minutes or until tender. Drain and set aside. In a pan sauté onions, carrots, and pecans in butter for 1-2 minutes. Stir in flour until blended. Gradually add broth. Bring to a boil and cook until thickened (stir constantly). Reduce heat, add ham, pepper, and rice. Cove and simmer for 5 minutes. Add half and half. Enjoy
